CREATE A COMIC STARRING SMUDGE!

Draw a 10-panel comic strip featuring Smudge on an adventure, showing the setting, problem, climax, and resolution. Use speech bubbles and action lines to bring your story to life!

The comic strip template consists of 10 panels arranged in three rows. The top row has three panels: a square, a large rectangle with a thought bubble above it, and a square. The middle row has four square panels. The bottom row has three panels: a square with a diagonal line from the top-left to the bottom-right, a large rectangle with a thought bubble above it, and a square. The entire grid is enclosed in a dotted border.
