

Name: _____

Date: _____

CHARACTER MATH

Can you find the clues in these problems to figure out what number each character represents? Once you discovered what a character represents, write your answer in the box!

$$\text{Witch} + \text{Witch} + \text{Witch} = 15$$

$$\text{Superhero} + \text{Superhero} + \text{Witch} = 19$$

$$\text{Cowboy} - \text{Superhero} = 3$$

$$\text{Ice Cream} + \text{Cowboy} = 17$$

$$\text{Fire} + \text{Ice Cream} + \text{Superhero} = 20$$

$$\text{Princess} \times 3 = \text{Fire}$$

$$\text{Princess} + \text{Ice Cream} + \text{Witch} = \underline{\hspace{2cm}}$$
