## FIVE SENSES

**Directions:** Read this passage from Chapter 4 (pages 37-38). The author uses multiple senses to help us experience Abigail's magic. Find words and phrases for each sense and write them below.

"A tiny spark leapt from her fingertips. She moved her hands faster and faster, feeling a charge build up inside her, and then thrust her palms forward. A sizzling jolt of energy shot up her arm as a trickle of arctic-blue witchfire zinged out of her palms straight for the closest sneevil."

| Sense                                                                                                                                    | Examples from passage |
